AECD tons.doc 2007 AECDs.doc AECD Template 6 15 04.rtf

I made a few changes to your table, because I think Merrylin will want to see how the old and new technology compare. Can you talk to Linc about filling in the blanks. I attached another table that we put together earlier. I don't think we will need it for Thursday, I wasn't sure if I sent you a copy earlier.

Before Merrylin left she asked to see a copy of an AECD submission and the AECD template. Please bring the Cummins write up for the ISX 14L engine for her to see.

You should also prepare a few bullets to explain the reporting template, the table and talk about how we will collect additional information in 2007.

Subject AECD tons

This is for Cummins 2002/2004 compliant ISX 14L engines. The total tons are for 1 model year of production. I dropped of the AECDs which were NA from the original list.
